CHAIRMEN OF THE BOARD

Invictus Recording Artists

What happened was, four individual artists were brought together to form a group. CHAIRMEN OF THE BOARD.

General Johnson, Harrison Kennedy, Danny Woods and Eddie Custis are individuals, separately and as a group.

On this, their first album, that individuality is displayed. General sings the group's huge hit "Give Me Just A Little More Time". Harrison sings lead on The Beatles' masterpiece, "Come Together". Eddie, who General described as the person who can sing, "The sweet things with authority" displays that authority on, "My Way". Danny takes care of business singing lead on, "Since The Days Of Pigtails And Fairytales".

Eddie Holland, President of Invictus Records and one-third of the songwriting and producing team, Holland-Dozier-Holland, waited eight years to get General Johnson. Holland had heard the million seller, "Rock 'n Roll Is Here To Stay" by The Showmen, and said he wanted to use the lead singer somehow, someday. That was General, who not only sang the song, he wrote it.

Harrison Kennedy left the Toronto cast of "Hair" before the play even opened to be a Board member.

So now we find four experienced individual artists together. They're all different but have one common denominator called, Talent.

Now the four individuals make up the CHAIRMEN OF THE BOARD, an individual group.
